

Our Program

All students deserve a high quality education within supportive learning environments and dynamic educational experiences that enable them to achieve academic success. We believe that by combining academics with a strong sense of community, we will empower students to become global citizens, problem solvers, and lifelong learners. Our elementary school model creates a student-centered and individualized approach to learning by incorporating small group, self-directed, and peer group learning environments that enable students to become confident and successful.

Our teachers believe in the potential of each and every student. They differentiate instruction by using learning, assessment, and communication tools to discover each student's strengths. Our curriculum has been developed within the frameworks of the Common Core State Standards while focusing on the individual learning goals of each student. Teachers continuously modify and adjust instruction based on a student's individual progress and achievement of learning goals. We embrace 21st century learning and equip students with technology as a tool to facilitate and enhance the learning experience. Learning to collaborate with others and connect though technology are essential skills that will allow our students to thrive in the 21st century.

Academic Goals

Our goal is to provide students with the essential knowledge and higher order thinking skills they need to become responsible and productive adults in society. Our academic goals provide a road map for teachers to follow while still allowing the time for creativity, differentiation, and completion of the performance standards necessary for all students to understand the content, and to have experiences that connect learning to real world scenarios. We accomplish this goal by providing students with the following:

All students regardless of the initial ability level can make significant academic gains in all content areas each school year. By equipping students with the skills necessary to become self-directed learners through the use of technology we make sure students are responsible owners and managers of their own learning process.

Our Mission

Middlebury Academy is dedicated to improving the lives of its students by providing authentic learning experiences in a collaborative, nurturing environment that will build a foundation for students' success in school, at future work, and in life.

To achieve the mission, our School will integrate current learning technologies into each classroom. We will offer authentic learning experiences that are representative of how children learn best, as well as offer a schedule and support activities that enable each student to reach to his or her potential. We want our students to leave with the skills and abilities necessary to achieve academic excellence, personal growth, and success as lifelong learners. This mission requires the support of the faculty, staff, families, and community in order to encourage and empower students to be responsible and valued citizens.

Our Vision

The School's vision is to improve the lives of its students and stakeholders through education.

Through careful planning and rigorous tracking we allow students to take ownership of their academic growth. Providing students with the opportunity to grow socially is extremely important. We create environments in which students can work together in peer groups to accomplish shared goals and learn social responsibility. Our goal is to create an integrated system of instruction that allows students to advance both academically and socially. Quality teaching in a small group setting allows all students to develop at their own pace. Within the small group environment our teachers act as facilitators to encourage healthy group interaction and develop academic cooperation. This system of learning not only helps students who struggle, but also those who excel because it gives them the opportunity to mentor each other. We strive to build the self-esteem of our students while enhancing their knowledge of the grade level content.

Sponsor Compliance Data

As the sponsor of your school, St. Aloysius is legally mandated to provide oversight, monitoring and technical assistance. St. Aloysius bases its ongoing assessments of school performance on a variety of indicators, including OGTs/OAAs, value-added, AYP/AMO, performance index scores, and other objective measures. In addition, St. Aloysius is a regular participant in school board meetings which include review and discussion of the results of short-cycle assessments of students’ academic progress (as well as other financial and organizational issues). St. Aloysius also reviews the school’s Ohio Improvement Process (OIP) focused plans and Implementation and Management/Monitoring (IMM) tools, which have significant impact on overall school performance.

This school is substantially compliant with the rules and regulations governing community schools. Though the school is substantially compliant, the sponsor creates a number of reports relative to the schools performance in many areas besides overall compliance. All community school sponsors are required to submit a written report of the evaluation results of the school’s academic, financial, and organizational performance as well as the school’s legal compliance to the Ohio Department of Education and make the report available to parents of students enrolled in the community school by November thirtieth of each year [OAC 3301-102-05(A)(3)]. As such, an Annual Report regarding the performance of this school and other schools under the sponsorship of St. Aloysius will be posted on our website www.charterschoolspec.com no later than October 30, 2015. Parents are urged to review this report as well as other such monitoring and evaluative reports available through the school or the sponsor for a full understanding of their school’s performance.

State Report Card

The 2015 Report Card (based on 2014-15 data) will be released on a different time schedule than usual per the Ohio Department of Education. The following data has been received as of January 2016.

K-3 Literacy F

Remaining report card information will be available in mid-February 2016.

Middlebury Academy is a community school established under Chapter 3314 of the Revised Code. The school is a public school and students enrolled in and attending the school are required to take proficiency tests and other examinations prescribed by law. In addition, there may be other requirements for students at the school that are prescribed by law. Students who have been excused from the compulsory attendance law for the purpose of home education as defined by the Administrative Code shall no longer be excused for that purpose upon their enrollment in a community school. For more information about this matter, contact the school administration or the Ohio Department of Education. All information contained in this report was accurate to the best of our knowledge at the time of printing.
